VermiGro by Umoja Soils is the preferred choice when it comes to earthworm castings to those in the know amongst the Stellenbosch and Helderberg community. This dark and nutrient rich soil solution, iconically known as Black Gold, has undergone a fine sifting process (4mm) for a refined premium product. It sells itself as the best natural organic fertiliser there is to offer and it forms the underlying support of all our other products in the soil health range.

About Vermigro:

- Vermigro is organic plant food and soil conditioner.
- Vermigro is the best fertilizer around.
- Made from 100% earthworm castings only.
- Vermigro is the only **Vermicast** product in the country certified by the Department of Agriculture.
Reg. Num.: B3890.Act 36 of 1947

VermiPure

Product Name	Price
VermiPure 1L	R95

VermiPure is our legendary homebrew of worm tea. It can be used directly as is or diluted, it will not burn your plant's roots or leaves. If plants could party, this is what they would choose to drink.

Our VermiPure worm tea is an inexpensive way to feed all vegetation from pot plants to vineyards without chemicals. It can also be used as a foliar feed to combat fungal infections.

Elite Vermi Soil Conditioner

Product Name	Price
Elite Vermi Soil Cond. 30dm	R95
Elite Vermi Soil Cond. m3	R950

Umoja's Vermi-infused compost.

Our compost is the preferred product to establish new lawns and flower beds. It can be used to fill planter boxes and veggie gardens, and generally creates those amazing gardens most people can only dream of.

100% organic, it's chemical-free and filled with VermiGro for an extra nutritional boost. It is fine to medium compost (6mm), with just enough roughage to keep on decomposing in your garden. Chances are high, you will find the odd earthworm in there too. It is a living soil and life promotes life.

RETAIL PRICE LIST 2023

Vermi Mulch

Product Name	Price
Vermi Mulch 30dm	R65
Vermi Mulch m3	R700

Help reduce global warming by using mulch on bare soil! This aids in reducing erosion and soil compaction. Mulch helps regulate the microclimate at a ground level, keeping it warmer on cold nights and cooler on hot days. Mulch reduces water loss from soil surface, which helps maintain soil moisture, and as a bonus, mulch combats weeds by keeping light from reaching the soil surface. Our mulch is a rough product. It contains our famous VermiGro worm castings and humus mixed with rough chips.

WoodChips

Product Name	Price
Wood Chips 30dm	R50
Wood Chips m3	R550

Wood chips are ideally used in your garden to promote soil health and reduce evaporation but can also be used to control weeds and for decorative purposes. Our wood chips are mainly pine with local timber from the gardens and farms of the Stellenbosch region.
